

# my care crew

[mycarecrew.co](https://mycarecrew.co)

**Our story starts out with two friends being there for each other while going through Cancer treatment...**

My friend Agnieszka had breast cancer and I have thyroid cancer. When she experienced a reoccurrence, we all rallied around her. We wanted to make sure she knew and felt she was not going through this journey alone!

It was during this experience that I realized how hard it was to show up for Agnieszka, when and how she needed us most. I thought, there has to be a better way! And when I couldn't find a solution to our problem, I thought we would create it! And that's how My CareCrew came to be!

# My CareCrew App - It's Free

Our app is designed to alleviate the daily pain points experienced during the cancer journey. The app makes it easy for:

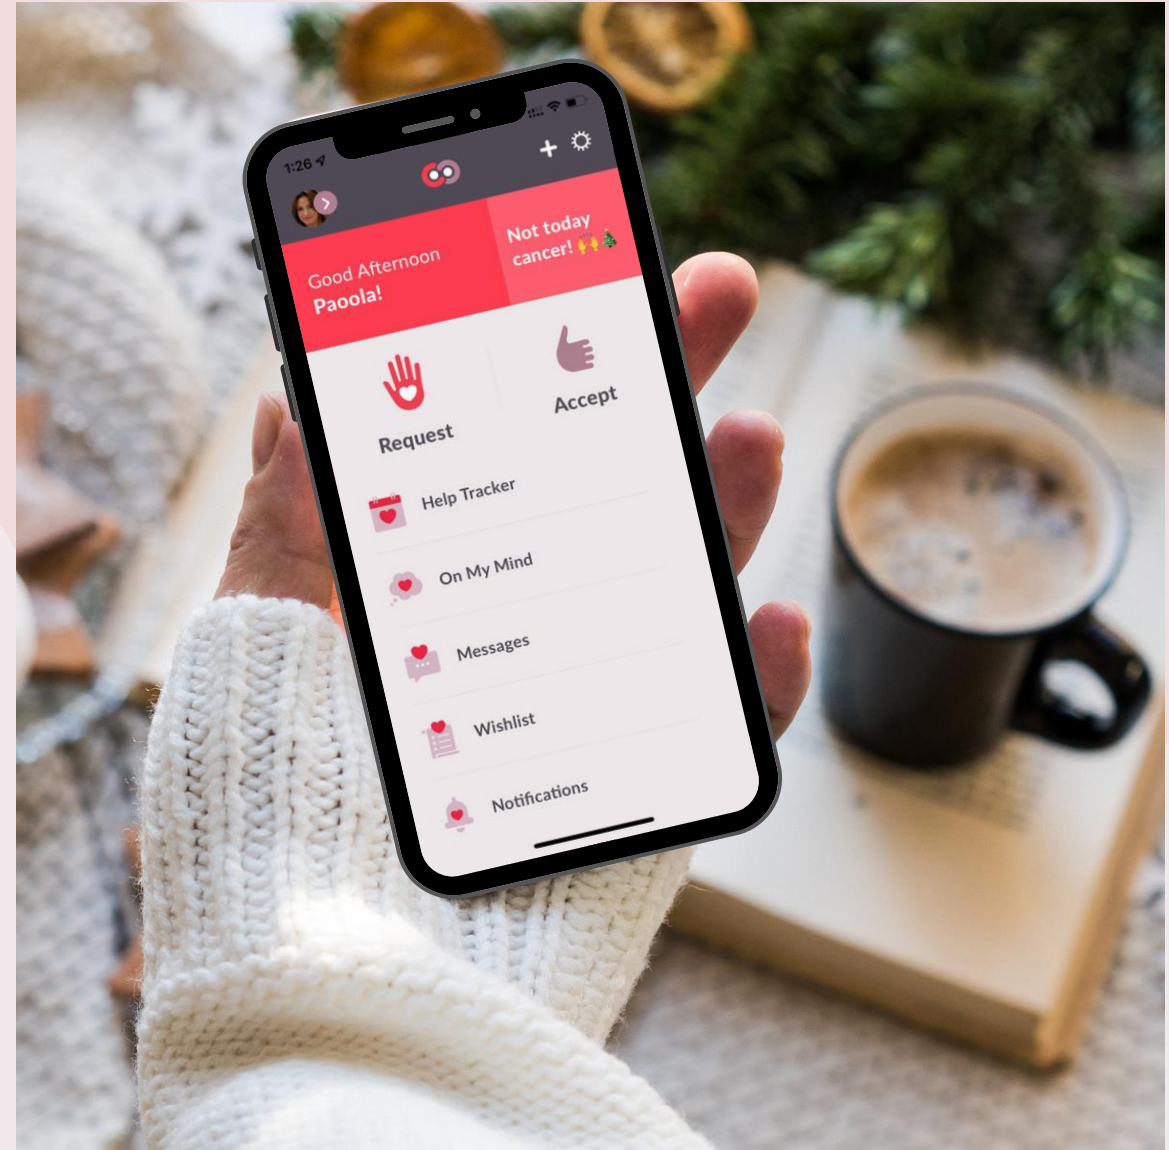

Patients and caregivers to...

- Share help requests & updates
- Manage inflow of help offers
- Track symptoms & mood
- Create a Wishlist

And Friends & Family to...

- Offer Help
- Find the perfect gift

The app is FREE! 100% ad-free.
